Post [#1](#)

So, while thinking of a nice way to procrastinate over my undone homework, I suddenly thought of making a thread. Then, since Renewal was already out in Sakray, sharing this guide is a good idea to aid those wanting to become a warlock the real way. And of course, for those who'd like to acquire that nifty Green Apple Ring (All stats +6, decreasing by 1 for every 10 base levels gained) and the ever-so-glamorous warlock-exclusive headgear.

So, after all that crappy intro, let the magic begin.

Warlocks are the 3rd class jobs of the wizards come renewal. Just like their predecessor, they unleash their vast repertoire of spells unto large groups of enemies, but this time, they're more destructive. But to become worthy of their ranks, a determined wizard must undergo a challenge. A challenge only for the manly (and womanly)!

Phase 1:

Before deciding on becoming a warlock, the intrepid wizard/high wizard must achieve a base level of 99 and a job level of at least 50. If having achieved those requirements, he must first find the hidden time-space warp, secretly located in morroc(103,144), or at this location:

Do note that there will be a chat prompt once the you step in this area. Choose the option "extend a hand" once asked. I test had my files deleted forgot to take a picture of this before turning to a warlock, thus the reason for the character already being a warlock sprite.

Phase 2:

You will be warped to a cramped room possibly located in Splendide. Talk to the guildmaster (in warlock sprite) to start the quest.

Phase 3:

After talking to the guildmaster, talk to Yoop, the little assistant beside her, and she will ask you to gather only one "shining crystal" from Nagas and one (or more, not confirmed) "great piece of bradium" from Bradium Golems. She will also give you a magical stone and a magical stone ring (both are accessories **which you will have to equip in order for the monsters to drop the item you need.**

Now talk to the fairy behind the guildmaster and she will warp you out of the room and throw you in Splendide.

Apologies for the lack of evident pictures. I was absent-minded during that all the time.

Phase 4:

Now in Splendide, head to the field just right of the town and begin the gruesome hunt for the shining crystal and the great piece of bradium.

To acquire the great piece of bradium item, you must kill Bradium Golems WITH the two magical stone accessories equipped. Without the magical stones equipped, you cannot acquire the needed item to proceed onto the next quest.

To acquire the shining crystal item, you must kill Nagas WITH the two magical stone accessories equipped. Without the magical stones equipped, you cannot acquire the needed item to proceed onto the next quest.

My thoughts on this part of the quest: though you're actually going to face New World monsters, rest assured that these monsters are now nerfed from insane four-digit damaging creatures into three-digit damaging ones. Though you still have to be on your guard, since they can still deal nasty skills on your character. Use safety wall tricks and freezing techniques to avoid getting attacked by them as much as possible. Firewall is also recommended, though you'd better watch out for the Naga's spear boomerang attack. Also, even though you're only supposed to hunt only Nagas and Bradium Golems, expect to battle Pinguiculas and Luciola Vespas getting in your way.

When you've been hunting for hours and still haven't gotten any item even when you have both of the magical stones equipped, rest assured that the drop rates of these items are abysmally low. But if you manage to get one of each quest item quickly, then congratulations, you've got a lucky mole. Otherwise, just be persistent and you'll finally get what you desire.

Again, apologies for the lack of pictures of the said items even though this guide NEEDS to have one. But these items are quite distinguishable, in fact. For instance, they have 0 weight. Moreover, they're not actually included in the drop rates of Nagas and Bradium Golems (drop rate tables linked somewhere above). Also to remind you, refined bradium and bradium is DIFFERENT from great piece of bradium.

Phase 5:

Once you have gathered the two items, go back to Splendide and head to the hut located at the very north of Splendide.

Went to your save point during your item gathering phase? You can simply go back to Splendide (besides doing the quest) by simply going to the same area in morroc which will lead you to the warlock guild room, then talk to the assistant behind the guildmaster once again so she will warp you back to Splendide.

Meet Yoop inside and give her the items, then she will tell you to head back to the guild room for your final quest.

Phase 5:

Before proceeding to the next step (which requires combat), prepare your PvM equipments (and of course, your phen) and carry as much potions as possible (better bring siege supplies boxes for lighter weight).

Go back to the guild room and talk to the the last fairy at the right side of the room...

... and she will then warp you to another cramped room - but this time it's a quest room. Enter the pub to start the last quest.

Take note of the "rainbow ruby" item that the fairy will give you - it'll become absolutely helpful in your quest later. Place each of these rubies in your skill slots for preparation.

Phase 6:

This is where the challenge is. You will be warped to a same cramped room, only filled with lethal monsters: 2 Nagas, 2 Bradium Golems, 2 Dark Pinguiculas, and 2 Aqua Elementals. Simply kill all the monsters in the room in 5 minutes FOR 2 ROUNDS to proceed.

Once again, apologies for not taking a screenshot.

For this part of the quest, I can only give 2 tips: (1)pots as fast as you can and (2) rely on the magical rainbow rubies the little loli gave you.

1. In a cramped situation like this, it is unavoidable to get hit and even mobbed by these monsters, so level 10 pots mastery is

required. You must also rely on your safety wall skills, firewall tricks and freezing spells to avoid the most contact from them. Moreover, be wary of the Aqua Elemental's Waterball, so you need to pot faster than a server maintenance in order to survive.

2. This is where we get to the fun part. Judging on the level and hp of the monsters in the room, you have to face the sad truth that you will never win with your wizard/high wizard skills alone (if you do, then congratulations, you've got a lucky pimple). And this is where the rainbow rubies come into play. Simply put, each set of rubies allow you to cast a LEVEL 5 Frosty Misty, Chain Lightning, Crimson Rock, and Earth Strain. However, these rubies never tell you which skill is which, so you have to play the guessing game in order to cast the right warlock spells at the right time. (My assumptions: the first ruby casts Chain Lightning, the second Crimson Rock, the third Frosty Misty, and the fourth Earth Strain)

Using your temporary warlock spells as your finishing move, you can make clear out all the monsters in a short amount of time...

... but there is a second round.

Yes, after you've cleared all the monsters inside, another batch appears, with the very same monsters attacking you. Prepare for the second wave of monsters by saving on rainbow rubies and already setting safety wall on yourself.

Once the second batch of monsters are taken care of, the crystal finally appears! Make short work of it with your remaining rainbow rubies and wizard spells and you're done with the quest!

Some notes:

If in case you died during this phase, you can simply redo this part by talking to the same fairy in the guild room. Fortunately, she will replenish your lost supplies of rainbow rubies. However, you have to wait for an estimated 5 MINUTES before doing the quest again. That five minutes cooldown will only start the moment you lose and got kicked out of the quest room.
(Unconfirmed)

Graduating Phase:

Once done, you will immediately be warped out of the room and sent to the main guild room. Talk to the kind loli who gave you the rainbow rubies for confirmation, then to the guildmaster for some fabulous makeover!!

Acquired: Green apple ring and Magic stone hat(int+1, dex+1, mdef+5; if pure dex==120, matk+10 and variable cast time -2)

Don't mind the Aria prefix and the upgrade, that's not included. 😊

Congratulations! You are now... some robed guy who owns a fabulous hat. 🙄

Note: If there are any mistakes that I've made, or if you have some pictures to complete my missing ones, then I'd be happy if you'd post these. You, reader, can add more tips or correct some mistakes by sharing it in this thread.

Corrections(Phase 6): After the second batch of monsters are taken care of, the crystal WON'T APPEAR YET. I completely forgot that there is a dangerous third batch of monsters following the second batch, completely consisting of... porings. Yeah, just porings (and drops if I remember).

For more corrections, comment below.
